

# MELROSE PARK OSHC BLOG

July vacation care week 2

## OUR WEEK AT OSHC

Monday was creativity day a day that the children used their imaginations and inventiveness to create! The high lights of the day were making bath bombs, the children were offered a rainbow of colours and could choose from three different styles; top deck, tie dye and stripes to make their bath bomb. Each child chose a character for the middle of their bath bomb and added sprinkles or stars to decorate the top. The children's other favorite activity was creating rainbow foam slime which was a fun sensory science activity.

Tuesday the group competed in laser tag in teams of red vs blue. The children used the field and trees to hide behind as they chased each other. The group also enjoyed making red and blue ice blocks to have after the laser tag fun. The other high lights included kinetic sand castle construction and water gun painting onto large paper surfaces.

Wednesday was winter wonderland day and the children came dressed in their pajamas ready for some winter themed fun. The group helped to make "snow" and enjoyed playing with the snow and creating snowballs. Later the group helped to bake melting snowman cookies and decorate them with icing, marshmallows and sprinkles. The children created newspaper snowman people and got to make their own hot chocolate.

Thursday morning the children were buzzing with excitement in anticipation for their trip to the movies. They began by decorating their lolly bag for their movie snacks when they had finished, they choose snacks to go inside. At 9.30 the OSHC children boarded the bus ready for their trip the movies at Top Ryde. The group watched "The secret life of pets 2" and loved it! The rest of the day was filled with candle painting, scratch art and outdoor play.

Friday, OSHC went camping, the children worked together to construct the tents and tunnels out on the lawn. They then took turns climbing in each tent and "camping". The children painted rocks and pine cones as they engaged with nature. Next the group enjoyed ball games and sand pit play where they cooked camping style foods. The group enjoyed making smores as a sweet Friday afternoon treat! The children also liked playing with air powered rockets and took turns attempting to catch the rockets as they flew through the air up to 30 meters.
